AFFAIRS OF THE RAILWAYS.

Personal, Local and State Notes. Work on the extension of the Chicago & In-diana Coal road from Goodland to Momence has

Geo. B. Staats, secretary of Superintendent Mansfield, of the Indianapolis & Vincennes road, is quite ill.

Several of the officials of the Chicago & Indians Coal road are soon to remove their head-quarters from Brazil, Ind., to Chicago. The Whitewater Valley road has taken off passenger trains between Cambridge City and Hagerstown, and now has only one mixed train

a day between the points named. The Wabash is making extensive improvements in the way of reballasting the road-bed, distributing from their Attica, Ind., gravelbank alone eighty car-loads of gravel a day. The third week in May the Lake Erie & West-

ern earned \$968 more than in the corresponding week 1887, making the increase this month about \$4,500 over the first three weeks of May, 1887.

There is a heavy movement of grain from cen-tral Illinois and points west of there to Chicago, which properly belongs to Indianapolis lines to parry. Whether rates are cut to draw it in that lirection is a query.

President Roberts and other officials deny the story that the Pennsylvania railroad company is to obtain control of the Schuylkill River Easttide railroad, and state that the tale is manuactured from whole cloth.

An official of the Ohio, Indiana & Western road, in speaking of the light traffle in prospect, tays that careful inquiry reveals the fact that there are 4,000 fewer car-loads of corn in sight on their lines than at the corresponding period

The Louisville, New Albany & Corydon will bereafter be known as the Albion & Corydon road. The negotiations, pending for some months, through which the Louisville, Evans-rille & St. Louis people expected to secure the road, have been declared off.

Commencing with Monday next the morning train north over the Louisville, New Albany & Chicago road will not leave the Union Depot until 7:30 A. M., forty minutes later than now, and the south-bound train which has been reaching Indianapolis at 7:30 A. M. will not arrive until

The promotion of Paul Morton to the position of general freight agent of the Chicago, Burlington & Quincy road is well received by his numerous friends in railroad circles. He is the youngest general freight agent of any important line in the country. He is capable, however, and energetic and a "hustler" for business.

The Cincinnati, Hamilton & Dayton work their through business largely in connection with the Vandalia. Is there any reason that it should not be transferred over the Belt road, as is that of the other roads? Why should the Union tracks, now overloaded with passenger traffic, be crowded by any of the through freight business of the C., H. & D., either west or east-

The Cincinnati, Hamilton & Dayton people are negotiating for the establishment of a nightly through line of sleeping coaches out of Indianapolis for Toledo and Detroit. With the present facilities the company carried out of In-dianapolis for Detroit last month sixty pas-sengers, and it is believed that the line can be made a paying one, at least during the summer

Wm. Turreff, general master mechanic of the Bee-line, is in the city. He has ordered that the new monster passenger engines just received from the Schnectady [locomotive-works, be run on freight trains for a couple of weeks until they are well limbered up. Their empty weight is 98,100 pounds. They are very handsomely proportioned, and are equipped with all modern im-

The choice flowers and plants which the Pennsylvania Company had in their yards sur-rounding their shops in the east part of the city have been sold to private parties, some going to Richmond and others as far east as Columbus. One of the officials assigns as a reason for the sompany doing away with their flower-beds, grass plats, etc., that the English stockholders were making a great howlover the extrava-

There are 6,000,000 bushels of grain in elevators at Peoria to go east within the next few weeks and the agents of roads running out of there eastward are watching the movement of it with the greatest interest, but neither dare to venture to name a cut rate. To the credit of the Peoria agents it should be said that since the last agreement between the roads was entered into tariff rates have been better adhered to than at any time in years.

Next week the passenger trains will begin to arrive and depart from the portion of the train sheds erected between Illinois and Tennesse streets, and all the rooms in the remaining por-tion of the old depot will be vacated and the work of tearing it down will then move along briskly. The iron men have got the changes ordered on the portion of the sheds already up completed, and are now prepared to resume new

work as soon as they have an opportunity. The Cincinnati, Indianapolis, St. Louis & Chicago road pays the largest per cent of the expenses of operating the Belt road of any compenses of operating the Belt road of any com-pany whose trains run over it. The expenses are proportioned on the wheelage basis. April was an average month, and in that month the C., I., St. L. & C. wheelage per cent. was 28.04; the I. & St. L. next, showing 12.23; the Bee-line third, 12.22; the O., I. & W. fourth, 11.78; the T. H. & I. fifth, 9.81; the J., M. & I., 8.58; the I. & V., 7.57. The C., H. & I., the L., N. A. & C., the L. E. & W. cut no figure in the percentages, doing the through business they have over the Union

May I the United States Express Company acquired express privileges over the system of the Central New Jersey. The company, under this arrangement, will put into effect, on June 1, a new express service between New York and Philadelphia, thus entering as a competitor with the Adams Express Company for a large traffic, which has heretofore been enjoyed exclusively by the latter company. The officers of the United States company say that they do not propose to disturb express rates if they can avoid it, but the feeling between the two companies is so ugly that a war on rates is imminent.

The Western and Northwestern Freight Association has been reorganized on a more complete basis than heretofore. Penalties are pro-vided for violations of the agreement regarding the making of rates. The lines will deposit from \$500 to \$1,000, according to the length of the road, to cover penalties, they ranging from \$100 to \$500, according to the discretion of the chairman, J. N. Faithorn. The new deal will have the effect of maintaining rates, which will yield some revenue to the roads in interest; at least they will earn operating expenses, which some of the roads now in the association have not been doing. The new rates are to take ef-

In commenting on the efforts of the Obio Southern road to refund its floating debt the Boston Advertiser says: "The trouble with the Ohio roads is that they are forever refunding floating debts—or at least a good many of them are—and Alfred Sully's Ohio Southern is a present instance. It has been decided to extend that road from Jackson, its present southern terminus, to Pomeroy, a distance of thirty miles. In order to raise the money to build the extension, the capital stock is to be increased to \$5,500,000." That must be an error, because it would require an increase in Ohio Southern stock of more than that amount to provide the cost of constructing thirty miles of road. Provision has also been recently made for the company's floating debt, which was quite a respectable sum.

Miscellaneous Items. The Denver, Texas & Fort Worth road is pre-

paring for a shipment of 40,000 head of cattle President Spencer, of the Baltimore & Ohio, tells a reporter of the Pittaburg Dispatch that the B. & O. will build some extensions to the laxes, Cleveland being their principal objective

The stockholders' committee have issued a modified plan for a reorganization of the Vicks-burg & Meridian Railroad Company. The de-cree for a foreclosure sale of the property has

been entered for June 6, 1888.

The New Castle & Beaver Valley road has brought suit against the Pittsburg, Fort Wayne & Chicago road for \$500,000, the Pennsylvania Company, leasing the latter, having failed, it is alleged, to carry out the lease as made by the P., Ft. W. & C. for ninety-nine years.

Managers of Southwestern roads are com-plaining that the Fort Scott, Gulf and Missouri Pacific roads have reduced rates to New Orleans to such an extent that the export grain from territory as far north as Omaha, Neb., and pro-visions, as well, go to inverpool via these lines.

In the month of June, last year, \$18,707,984 was disbursed in railroad dividends and interest on railroad bonds, and it is stated that this year the sum will be 20 per cent larger, owing to the increase in bonds issued in the last twelve months. In July the increase promises to be

He Was Not Delicate. San Francisco Argonant.

A thin, delicate-looking woman sat in a borse-car one evening recently, and next her sat a native of the Queen's realm. The window be-hind the Briton was open and the cool wind blew in on the woman, making her shiver. As last she said, in a lady-like way, "Won't you be kind enough to close the window behind you,

as it makes me very cold?" It would hardly have caused the man any inconvenience to grant this request, but he replied harmly, "I prefer it open; you Americans can't stand any-thing; you all seem to have consumption." The other passengers in the car were astounded at other passengers in the car were astounded at his incivility, and there were many angry glances cast at the royal subject. Finally a gentleman rose on the spposite side of the car, and approaching the Englishman, with about 220 pounds avoirdupois, leaned over him, and grasping the window slammed it down with vigor; then he remarked: "New, my friend, if you think all Americans are afflicted with consumption, you just raise that window again. I am an American." The little woman blushed, the other passengers smiled, the American re-turned to his seat, and the Briton looked out of the window and thought.

Every watch or clock that is supposed to be correct, that is warranted, that runs by a chronometer is out of the way at least a quarter of a second in every twenty-four hours. There is no such thing as correct time on the face of the earth-Yes, that is so. If you want the correctest of correct time, dig a hole in the ground, take your watch or clock along, get some one to stand on the edge of the hole, call out, "Greenwich time!" and then pull the hole in after you. There is no vibration in the hole, and it is the vibration or oscillation of the earth that makes the chronometer go wrong.

DAILY, SUNDAY AND WEEKLY.

The Most Complete Newspaper in all Departments in the State of Indiana.

No newspaper in the West is more widely or more favorably known than the INDIANAPOLIS JOURNAL. By the display of enterprise and strict attention to the wants of the reading public, it has taken a leading position among the most prominent journals of the country, and is certainly among the best. Among the newspapers of the State it is pre-eminently the best, and Indiana readers can nowhere else find what they want in the way of State and local news. It circulates largely in every county in Indiana, and has correspondents in every town and village of impor tance. Its market reports are prepared with the greatest care possible, and no pains or expense are spared to make them accurate and absolutely reliable. It is the only newspaper in the State owning and pubshing all the news furnished by the two great press associations (the Western Associated Press and the United Press), in addition to which it furnishes an abundance of special service from all the principal cities of the country. It has been, and will in future be, the aim of the publishers to make the INDIAN-APOLIS JOURNAL a perfect and complete newspaper, deficient in no department or particular. The paper challenges comparison with any of its contemporaries. The approach of the great campaign of 1888 renders it desirable for every citizen to have a first-class newspaper; in fact, it will be impossible for him to keep fairly abreast of the times without such a paper. Great political battles are to be fought in the State and Nation, and their conduct and progress the Jour-NAL will carefully record. No Indiana reader, cer tainly no Indiana Republican, should be without the JOURNAL in the coming campaign. While it is thor oughly and soundly Republican in politics, devoted to the interest of the Republican party, the JOURNAL will not allow its news to be colored by partisan bias. but will give the news of the day without fear or favor. The present session of the national Congress will be among the most important held in recent years, and questions of great national moment will be considered. Every citizen is interested in the pending legislation, and can keep himself thoroughly posted by a perusal of the JOURNAL'S news columns. in which the doings of Congress will be fully reported In addition to its news features the JOURNAL regales its readers with the productions of some of the best known literary men and women of the day. Many of the most celebrated magazine writers and authors are contributors to its literary columns, making it a paper for the household and home circle. Special arrangements have been made for features of this character, which will appear in the JOURNAL during the coming year. These appear most largely in the SUNDAY JOURNAL, which is a special edition, and can be subscribed for and received exclusive of the DAILY
